

Circular fashion for global travelers

**Leaves a mark without
leaving any residue**

Cada año, millones
de maletas viajan
más que sus dueños.

El sistema de eugejaje actual
consume toneladas de combustible,
recursos y espacio logístico innecesario.

Además, genera retrasos,
extravíos y un alto coste ambiental.

¿Y si la ropa ya
estuviera esperándote
en destino?

Every year, millions
of suitcases travel
more than their owners.

The current baggage system consumes
tons of fuel, resources, and unnecessary
logistics space.

It also causes delays, losses, and
a high environmental cost.

What if your clothes
were already waiting
for you at your
destination?

Cada año, millones de maletas viajan más que sus dueños.

El sistema de eugejaje actual consume toneladas de combustible, recursos y espacio logístico innecesario.

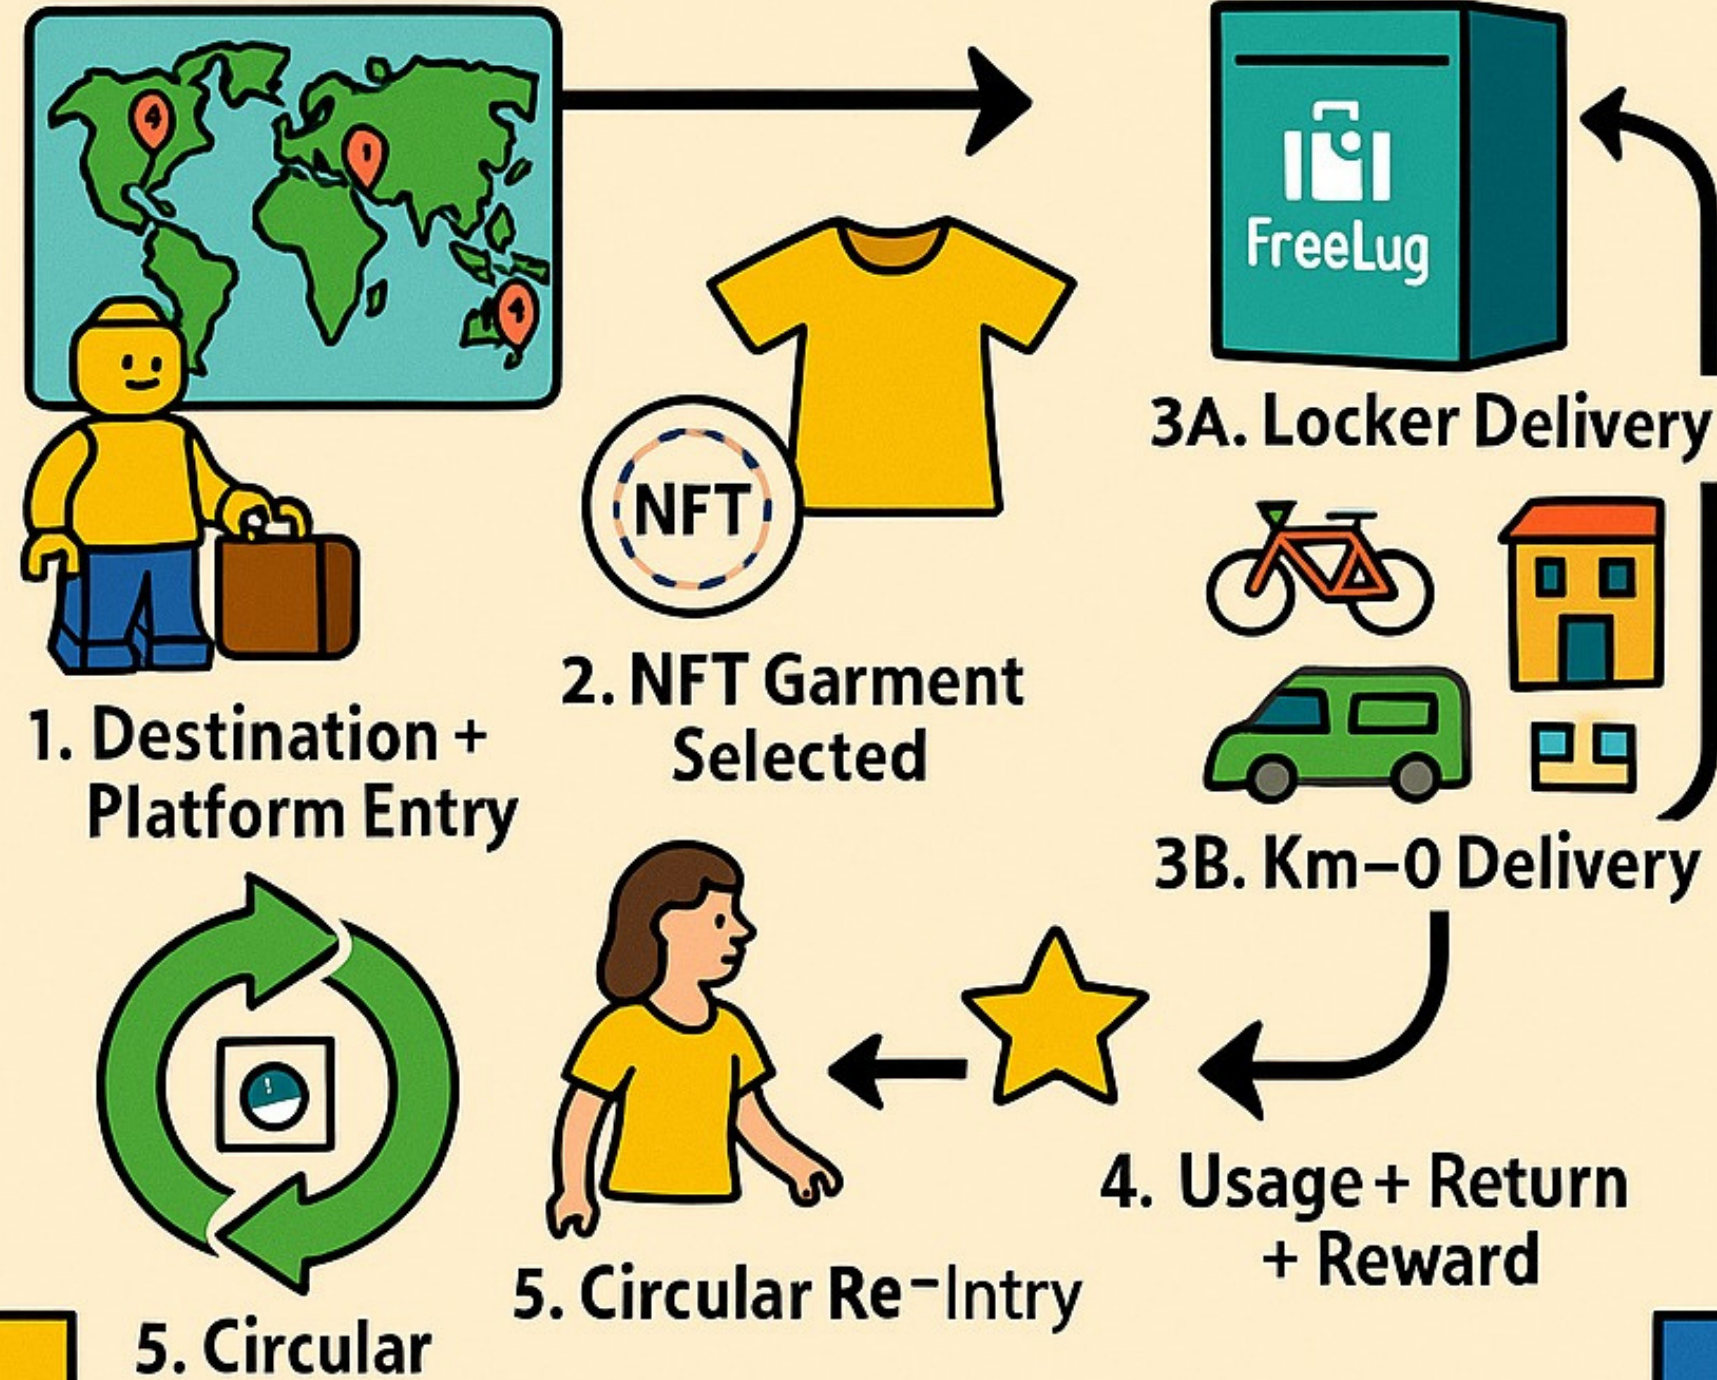

Además, genera retrasos, extravíos y un alto coste ambiental.

¿Y si la ropa ya estuviera esperándote en destino?
